

PRODUCT UPDATE

PRODUCT:

- CG29300 - 6-Outlet Power Strip with Surge Suppressor

MODEL COMPARISON PREVIOUS VS. UPDATED DESIGN

PREVIOUS MODEL

UPDATED VERSION

In our ongoing commitment to enhancing product quality and performance in line with industry standards, we have made the following changes:

WHAT HAS CHANGED?

1. Added LED indicators to show active surge protection status at a glance.
2. The maximum power load of the strip has been changed from 1875 W to 1800 W.
3. The country of origin has changed from China to Vietnam.

We're pleased to share that the power strip maintains its reliable high performance, now enhanced with an LED surge protection indicator for greater usability and peace of mind.

During this transition period, you may continue to receive shipments of the previous product model until existing distributor stock is depleted. Both the old and new models meet our strict quality standards.

If you have any questions or require additional information, please don't hesitate to contact us. We appreciate your continued support and look forward to providing you with our improved product.
