# STYLUS FOR iPad

Compatible with iPad 2018 or later

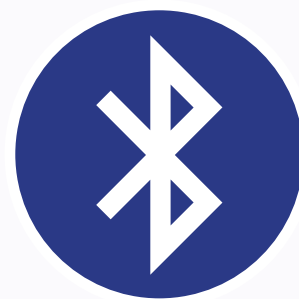

PALM REJECTION

TILT SENSITIVITY

MAGNETIC ATTACHMENT

BLUETOOTH 5.2

Verbatim's Stylus for iPad provides an authentic and smooth writing experience- just like putting pencil to paper. Featuring high sensitivity and inbuilt functionality such as palm rejection technology to provide a comfortable writing experience that feels just like the real thing. In addition, the stylus is equipped with a multi-function button for increased productivity whilst performing regular writing functions.

The built-in battery lets you write or draw continuously for extended periods, and the power-saving mode activates after 5 minutes of inactivity to maximise battery life.

# STYLUS FOR iPad

Compatible with iPad 2018 or later

PART# 66898

## PALM REJECTION TECHNOLOGY

Inbuilt palm rejection technology lets you comfortably rest your hand on your screen without unintended marks. Your device detects the active stylus and distinguishes it from your hand.

## TILT SENSITIVITY

The durable, ultra-precise nib includes tilt sensitivity which provides pixel-perfect lines that you can control the thickness of when writing or drawing. Adjust line thickness with a tilt of the nib.

## MAGNETIC ATTACHMENT

Keep your Stylus handy and safe by magnetically attaching it to your iPad for easy storage on the go. Magnetic attachment only compatible with specific iPads with magnetic surface.

## MULTI-FUNCTION BUTTON

The Stylus is equipped with a multi-function button, performing functions including Eraser, App Selection, Volume Up, Photo Capture and Video Recording. Increase your productivity with the click of a button.

## BLUETOOTH 5.2 CERTIFIED

Verbatim's Stylus features Bluetooth 5.2 certification which reduces power consumption and ensures wide range compatibility with different iPad models.
