65W GaN USB Charger

A LITTLE GIANT OF A CHARGER

65W GaN USB Charger

Featuring 65W fast charging, the ADATA 65W GaN USB Charger powers laptops and high-power devices quickly and effectively. Utilizing advanced GaN (gallium nitride) technology, this charger is ultra-compact and portable, making it an ideal travel companion. The folding plug design ensures easy storage and portability. With the capability to simultaneously charge three devices, it is perfect for multi-device users. Enhanced safety is ensured with multiple circuit protection mechanisms, providing reliable and secure charging for all your devices.

Efficient & Smart PD/QC 65W Fast Charging

Supports PD3.0 and QC4.0 fast charging standards at a maximum output of 65W to charge laptops and other high-power devices. Smart charge management utilizes advanced PPS (Programmable Power Supply) technology to automatically adjust wattage according to the charging device to meet diverse charging requirements.

GaN Technology

GaN is a highly temperature resistant and chemically stable semiconductor that delivers high power output and high thermal conductivity. It makes charging devices faster and more efficient compared to traditional chargers.

*This product does not include a USB charging cable.

*Before charging, please confirm whether the charging cable and/or charging device support 65W fast charging.

Ultra-compact and Portable

GaN chargers are small and light. The ADATA GaN charger measures only 53cm and fits in the palm of your hand, making it the perfect portable solution to running out of power.

Folding Plug for Easy Storage

Equipped with a 90° folding plug, the charger stores readily without getting tangled with the charging cable. It is a must-have for business trips and vacations.

Simultaneously Charge 3 Devices

Two Type-C ports support individual power output of up to 65W. One Type-A port supports individual power output of up to 60W and three devices can charge simultaneously at a maximum output of 60W.

Multi-Circuit Protection

Multi-circuit protection ensures user safety in case of over-current, over-voltage, over-temperature and short-circuiting.

Features

● 65W fast charging for laptops and high-power devices

● Powered by GaN (gallium nitride) technology

● Ultra-compact and portable

● Folding plug for easy storage

● Simultaneously charge 3 devices

● Multiple circuit protection mechanisms
