MiVue Manager
User Manual

Introduction

MiVue Manager is a tool for you to view the videos recorded on a Mio MiVue recorder.

IMPORTANT! Your computer needs MOV and AVI codecs to play the recording files. Please search online and download and install the required codecs.

Note: Not all features are available for every model.

Installing MiVue Manager

1. Insert the CD that came with the recorder into your computer's CD drive.

2. Double-click **Setup.exe** and follow the on-screen prompts to install MiVue Manager.

Playing the recording files

Note: You are advised to copy the recording files to your computer for backup and playback.

1. Do one of the following:

    ■ Connect the mini-USB end of the USB cable (not supplied) to the recorder and the other end to a USB port on your computer.

    ■ Remove the memory card from the recorder and access the card on the computer via a card reader.

2. Start MiVue Manager on the computer.
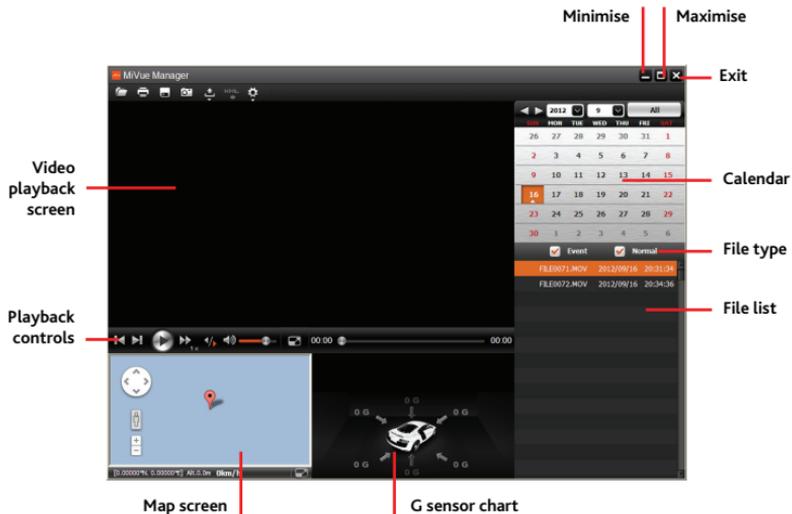

Note: The Map screen may not display when the computer is not connected to the Internet or when your Mivue model does not support the GPS function.

Note: G sensor chart displays data in 3-axis waveform about the car's shift forward/backward (X), to the right/left (Y) and upward/downward (Z).

3. By default, MiVue Manager shows the calendar and the file list on the right.

   ▪ When a recording file exists, you will see the date marked with "▲." Click that date to display the files that were recorded on that date.

- You can choose the file type to display: **Event** (emergency event recording) and/or **Normal** (continuous recording).

- To display all files in the current folder, click **All**. To return to the calendar view, click **Calendar**.

Calendar	Calendar and File List	All File List

You can also click on the upper-left corner to select the folder that stores the recording files.

4. Double-click the desired file on the file list to start playback.

5. The playback controls are described as follows:

Icon	Description
	Starts or resumes the playback.
	Pauses the playback.
/	Skips to the previous / next file on the list.
	Changes the playback speed to 1/4x, 1/2x, 1x (default), 1.5x, or 2x.
	Changes the playback direction. The ▶ icon indicates the current playback direction.

Icon	Description
🔊 / 🔇	Mutes or unmutes the volume.
●──────	Adjusts the volume level.
⬚	Plays the video in full screen.
⬚	Returns to the normal view.
00:28 ●──── 03:00	Displays the playback progress. You can click on a point along the track bar to move directly to a different location for the playback.

6. The tool bar allows you to do the following:

- Click 🖶 to preview and print the current video image.

- Click 💾 to back up the selected files to the specified location on your computer.

- Click 📷 to capture and save the current video image to the specified location on your computer.

- Click ⬆ to upload the selected file to Facebook or YouTube.

- Click KML➡ to export the GPS information of the selected file in the KML format to the specified location on your computer.

- Click ⚙ to open the Settings menu. (See the next section.)

Settings menu

Click to open the Settings menu.

The Settings items are described as follows:

Item	Description
Change Language	Sets the display language of MiVue Manager.
Change Skin	Sets the color scheme of MiVue Manager.
Check for Update	Checks if there is any new version of MiVue Manager. **Note:** Internet access is required for this feature.
About	Displays the version and copyright information of MiVue Manager.
