

Universal Disposable VS Mask for Oculus

100 COUNT

These disposable masks help to keep both you and your device clean at all times by preventing direct contact between your skin and the VR mask. Eliminating this direct contact helps to prevent the transfer of sweat, hair, cosmetics, dirt, etc. from transferring from the user(s) to the device, between multiple users, and from the device to the user(s). These masks are perfect for not only at-home, personal use, but also for multi-user environments such as events, arcades, tradeshows, etc.
