

4XEM 5M USB 2.0 Flat Extension Cable

4XEM Part- 4X3204A15M

4XEM's USB extension cables are an ideal solution to solve USB device and peripheral connection problems. This cable is designed "flat", this flat cable has a greater surface volume ratio than rounded cables. That additional volume gives these cables greater temperature control and therefore greater current carrying efficiency. The plug in and play quality allows you to use your USB devices in any configuration without an installation process or any convoluted set-up. With 5 meters to use 4XEM's USB 2.0 flat extension cable is an efficient solution for your USB connection problems.

Problem it solves: Efficiently extend your USB devices and peripherals with simple plug and play use, with 4XEM's USB 2.0 Flat extension cable.
