

Targus®

Click-In Case for iPad®

Style, function, and protection

Available for
New iPad®
2022
(10th Gen)

Simply Smart Cases

Style and function join forces to deliver protection and performance for your iPad. The patented custom-molded tray with reinforced corners secures and safeguards, while the strong magnetic closure ensures safe travel. A simple flip transforms your case into a sturdy stand for comfortable typing. Flip again for easy viewing. Virtually infinite viewing angles let you customize your view, while deep grooves anchor the edge to keep your view stable.

Every case undergoes Military Standard drop protection

The MIL 810G 1.2m/4ft drop protection is a test standard set by the US Department of Defense and is generally accepted as the benchmark for ruggedized protection of electronic devices and equipment. Tests include 4ft/1.2m drop protection testing and 25 drops on concrete resulting in no device damage.

*As tested by an independent third party applying MIL-STD-810G, Method 516.6, Procedure IV.
