

# HP Poly Mission 625 Stereo USB Wired Headset (C01C6AA)

## Overview

### Comfort meets performance

Built for long days and countless calls, the HP Poly Mission 625 headset blends exceptional comfort with high-quality audio and easy USB connectivity — helping teams stay focused, productive, and connected all day.

### Custom fit for long days

Designed for all day comfort – the adjustable padded headband pad and plush memory foam earcups provide a personalized fit that supports focus and reduces fatigue — even through all-day meetings.

### Simple, reliable connections

Plug in and get to work. With USB Type-C® and USB Type-A compatibility, intuitive inline controls, and easy device management via HP Poly Studio App, setup is effortless and reliable for every user, every time.

### Always clear, always professional

When your workday gets loud, HP Poly Mission 625 headset helps your voice shine through. Noise-canceling mics and AI noise reduction[1] keep conversations professional and distraction free, so your calls are clear and focused.

### Built for a better tomorrow

This headset is thoughtfully designed containing at least 30% post-consumer recycled plastics[2] and shipped in paper-based packaging[3].

# Features

## AI noise reduction[1]

AI noise reduction[1] detects and filters ambient sounds so only your voice comes through. Meetings stay quiet and focused without manual muting.

## SoundGuard Digital[5]

SoundGuard Digital[5] technology controls sudden audio spikes and continuous noise to keep levels safe and comfortable throughout the day without distorting speech quality.

## Super wideband audio

Super wideband audio captures a broader frequency range to reproduce voice detail and tone more naturally. Conversations sound closer to in-person speech for clearer calls.

## 32 mm speaker drivers

Large 32 mm drivers deliver richer audio and sharper clarity, making voices easier to recognize and reducing listening fatigue during long sessions.

## Rotatable microphone boom

A 285-degree rotating microphone lets users wear the boom on either side for comfort and control. Quick upward movement automatically mutes the mic for seamless silence when needed.

## On-ear busy light indicator

360-degree visible busy light, on both earcups illuminate red during calls to let others know you are engaged. A simple visual cue helps reduce interruptions and maintains focus in shared workspaces.

[4] HP Poly SoundGuard Digital includes G616 anti-startle protection which limits the noise level to below 102 dB SPL and is compliant to the Australian Communications Industry Forum (ACIF) G616 recommendation; HP Poly owned proprietary Advanced Audio Limiter, compliant to ACIF G616; and Average Daily Noise Exposure that measures and controls sound to prevent the Average Daily Noise Exposure from exceeding 80 dBA or 85 dBA time-weighted average (TWA). HP Poly Studio App is required to enable SoundGuard Digital features. HP Poly SoundGuard protects against

*Acoustic Shock by limiting sounds to below 118 dBA. This feature is enabled by default and is not a user configurable feature.*
