

**PREMIUM WIDE ASPECT RATIO LED SERIES
(18~23 inches)**

1. SAFETY INSTRUCTION

※ Follow this safety instruction to use the monitor properly and prevent the damages.

※ This safety instruction has “Warning” & “Caution” as below

-  Warning - If the user does not follow this instruction, it may cause the serious damage to the user.
-  Caution - If the user does not follow this instruction, it may cause the slight damage to the user or cause some damages to the monitor.

※ Keep this user's guide book for later use.

Warning

Never remove the back over and touch the inside of the monitor.
If you need a service, please contact the service center.

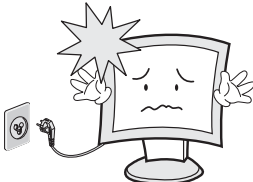

Keep away the monitor from the direct sunlight and a heating appliance.

Never push objects of any kind into this product as they may result in a risk of fire or electric shock.

Connect the power cord to the wall outlet tightly. If the power cord or plug are defective and the wall outlet is not tight, please do not use them.

 **Warning**

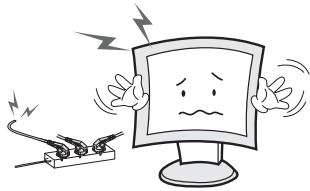

Do not install this monitor on the outside and near water. If may cause damage to the product, electric shock and fire.

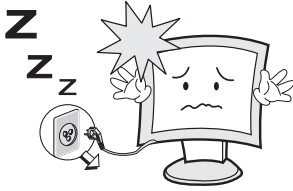

For cleaning do not use liquid cleaners. Never touch the power plug with wet-hands.

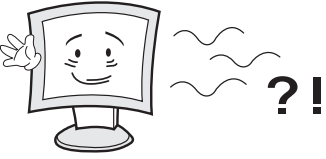

When lightning and thundering, unplug the monitor from the wall outlet and never touch it.

Unplug this product from the wall outlet, when It does not operate for a long time.

When smoking and noising from the monitor, unplug the product from the wall outlet and contact a service center.

 **WARNING** : How to fix

Do not open this product as it contains high voltage inside.
 It may create an electric shock.
 If the user disassembles and remove the back cover, it does not make sure to make up for the damages and do a service and exchange the monitor.

! Cautions

Install this monitor some distance
From the wall and do not install unless
Proper ventilation is provided.

Place this product on a stable place.
If not, it may fall, causing serious
Damages to the monitor and people.

The openings must not be blocked by
curtain, rug or other similar surface.

When carrying this monitor, be careful
not to damage the panel and drop it
It may cause some trouble.

Before carrying the monitor, turn it off and
Unplug the signal cables and the power cord
From the wall outlet.

Take the power plug out from the wall
outlet.
Do not pull the cable. It may snap the inner-
wires and cause overheating and fire.

! Cautions

Install this monitor about 50cm far from the eyes and an angle of 0~15 degrees below eyes. Too close installation may cause having weak sight.

Do not press the LCD panel with hands or the sharpened material hardly.

For cleaning, unplug the monitor from the Wall outlet. Do not use the liquid cloth. Use the soft cloth.

Do not use the chemical liquid for cleaning. It may cause fading and breakage.

2. FCC RF INTERFERENCE STATEMENT

NOTE

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio, TV technician for help.
- Only shielded interface cable should be used.

Finally, any changes or modifications to the equipment by the user not expressly approved by the grantee or manufacturer could void the users authority to operate such equipment.

DOC COMPLIANCE NOTICE

This digital apparatus does not exceed the Class A limits for radio noise emissions from digital apparatus set out in the radio interference regulation of Canadian Department of communications.
