

Extreme Shell-L and -S

1

Open the case and lay both sides flat on the worksurface

2

Align device screen with the top left corner, then insert it under the left side and top left corner clips

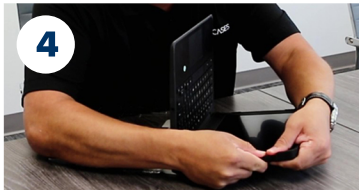

3

Push the device up against the top edge of the case until it is securely under the 3 top clips

Scan QR code
for video instructions

4

Push firmly along the right side to secure the two clips

5

Secure the bottom clips by pressing firmly along the bottom edge of the device

6

Make sure the back clips are securely attached before securing the remaining clips on the bottom case

7

Complete the installation by pressing down on the clips along the front of the case bottom

Please Note: Installation of all Extreme Shell-L and Extreme Shell-S cases follow these steps. Above images are an Extreme Shell-L case. Device model will vary.
