Accell Power UV Sanitizer with Wireless Charging

Model: D233B-002F

The Accell Power UV Sanitizer with Wireless Charging is a device that functions as a sanitizing device and a wireless charger. It uses UV light to thoroughly sanitize every corner and surface of your device, killing 99.9% of common foreign bacteria and germs. This product can also wirelessly charge compatible devices when placed on top.

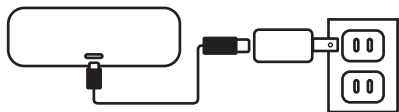

Key Features:

- Utilizes Ultraviolet light to kill 99.9% of common germs
- Sanitization process covers all surfaces at once
- Support 15W fast wireless charging for compatible devices
- Two sanitize modes: 5 min [quick mode] and 10 min [deep cleaning]

In the Box:

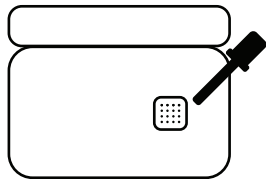

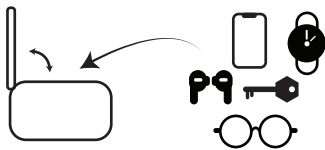

- Accell Power UV Sanitizer with Wireless Charging
- USB C to A Cable
- 18W Power Adapter
- User Manual

How to Use the Sanitizer:

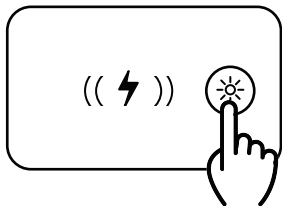

1. Connect the Accell UV Sanitizer to a power source with the included power adapter and cable.

2. Open the lid and place gadgets such as phone, watch, keys, glasses or headphones inside the sanitizer.

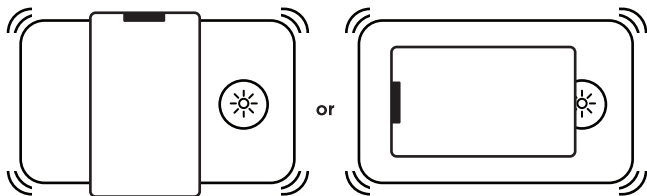

3. Optional: add a drop of essential oil into the fragrance storage for aromatherapy effect.

4. Press the button on top once to begin sanitizing in 5-minute quick cleaning mode. Press the button again to switch between 5-minute and 10-minute mode. The light on the button will shut off when sanitization is complete. To cancel the sanitization process before the timer ends, press and hold the button for 4 seconds until the light shuts off.

How to Use the Wireless Charger:

Place your compatible device on top of the lid and wireless charging will begin automatically and you will see blue LED lights around the top lid. You may need to align the wireless charging module on your device to the center of the wireless charger where the logo is to ensure proper charging.

If the blue LED lights flash or you are unable to use the wireless charger, please contact our support team at support@accellww.com for assistance.

Safety Instructions:

- Do not open the sanitizer while the UV sanitizer is in use. Exposure to UV wavelength can be harmful to human skin and eyes
- Keep this product away from fire sources and corrosive environments
- Keep this product away from water and high-moisture environments
- Do not wipe the device with organic solvent
- Keep away from children or pets
